LINCOLN NAVIGATOR

To whom it may concern,

We've been doing business with ADG for more than a year. And are extremely pleased with the amount of support and service we are receiving from them.

Holt Motors has been in the business for over 62 years. I have been in the car business for 15 years and have been solicited by just about every company. Ever since we have made the decision to partner with ADG, we have made strides in our finance department. ADG has been a true partner and continues to be, as a matter of fact the folks from ADG helped us to completely revamp our F&I department and our production is up 300%!!!

They are helping us with the process design and implementation in other areas of the dealership, as well as assisting with recruiting and training. ADG have truly become our partner and we highly recommend them.

With questions please call
